dsi@datascavenger.com

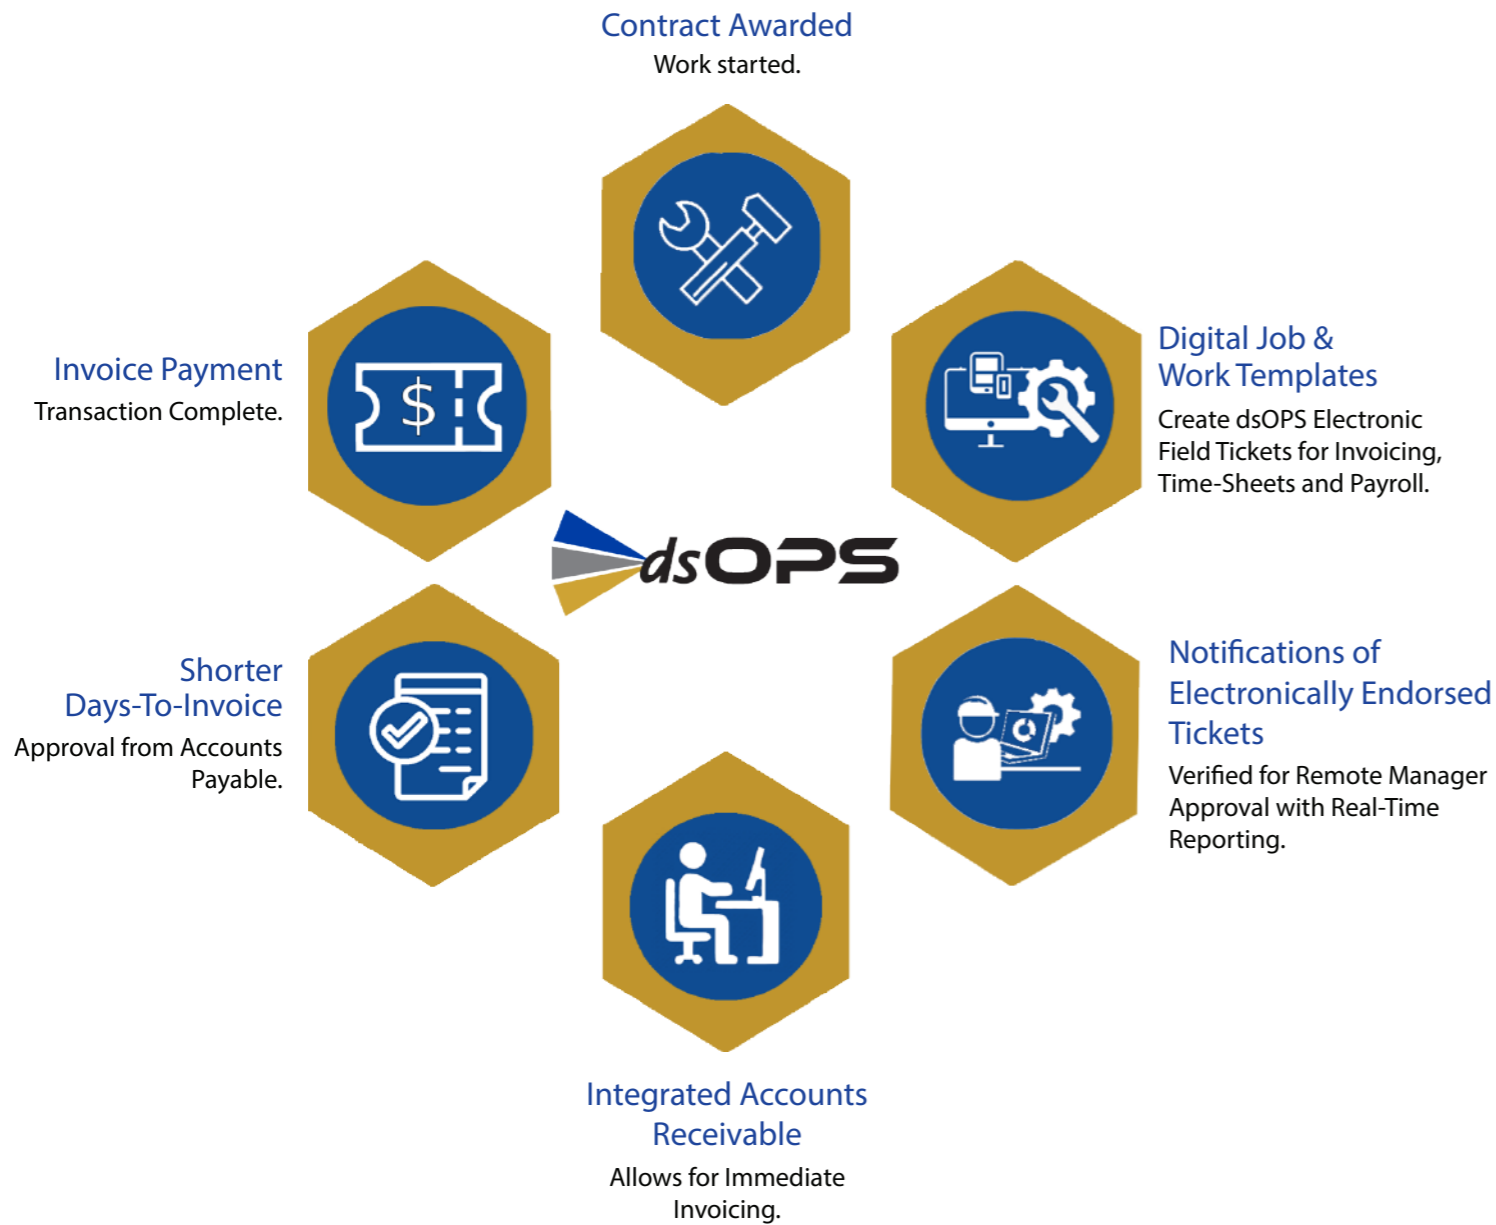

KEY FEATURES

dsOPS is an operational electronic ticketing solution that tracks equipment, revenue and personnel all in real-time on the Data Scavenger cloud. It is a field designed and proven easy to use application that provides powerful, real-time visibility into your day-to-day business.

Managers can view and approve time sheets, see what equipment is in use, manage multiple client invoices and revenue from one interface that is accessible anywhere there is an Internet connection.

No Internet Connection? Don't stop working...
Take dsOPS off-line and synchronize once you reconnect.

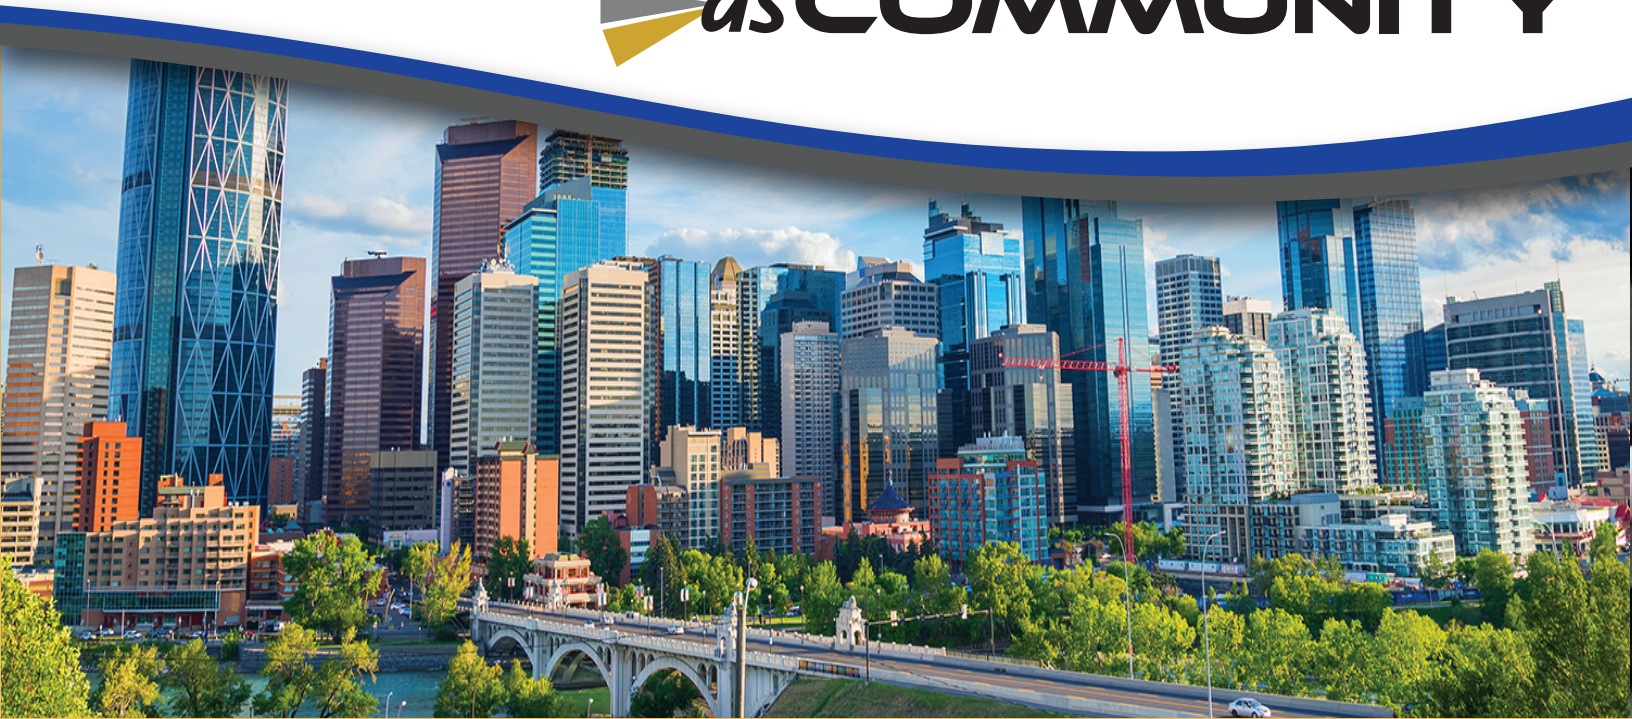

Key Benefits

- Tracks utilization of manpower and equipment while monitoring revenue in real-time.
- Maximizes productivity and profitability by having a centralized location for digital revenue, time-sheets, asset tracking, maintenance, scheduling, and information.
- Improves, manages and reduces your companies "days-to-invoice" allowing you to generate revenue faster.
- Reduces data entry errors and relieves administrators from redundant tasks allowing them to focus on higher priority tasks.
- Fully integrated storage solution for EH&S, maintenance, equipment, vehicles, personnel and documents with full audit capability.
- Hosted in a secure Q9 data center using advanced technology to protect your data, including AES-256 Bit Encryption.

Key Functions

- Eliminate paper processes, data entry and manual record keeping with unlimited electronic ticketing, document storage and retention date scheduling.
- Streamline operations with instant access to operational snapshot including revenue, time-sheets and utilization with all your information in one location.
- Off-line capability so that you can take your work to the most remote areas.
- Custom Reporting. Your Information. Your Way. Today.
- Custom Permissions with unlimited number of users.
- Schedule your assets for upcoming jobs, work rotations and maintenance.
- Dynamic, flexible and tiered rates to enhance user ability of the system to allow setting up a Job simpler. Custom Package Templates and Bid Prices.

Data Scavenger Community

At Data Scavenger we value community involvement and is why we proudly support countless community driven programs that everyday strive to make a positive impact.

Testimonial

"...The Data Scavenger implementation process was seamless and training was predominantly done over the phone or email. The support from the Data Scavenger team is instant.

Day or night they have someone available. After 6 months in use, this program has changed our company. We bill our customers faster, revenue and utilization are immediately visible, and all your job files are in the proper folders for processing and auditing etc."

"...The functionality of this platform seems to be endless."

-Canadian District Manager, Versatile Energy Services
